# IT Security

## NZISM as a standard

# Confidentiality

**“Perceived  
confidentially  
is as  
important as  
the reality”**

# Standards

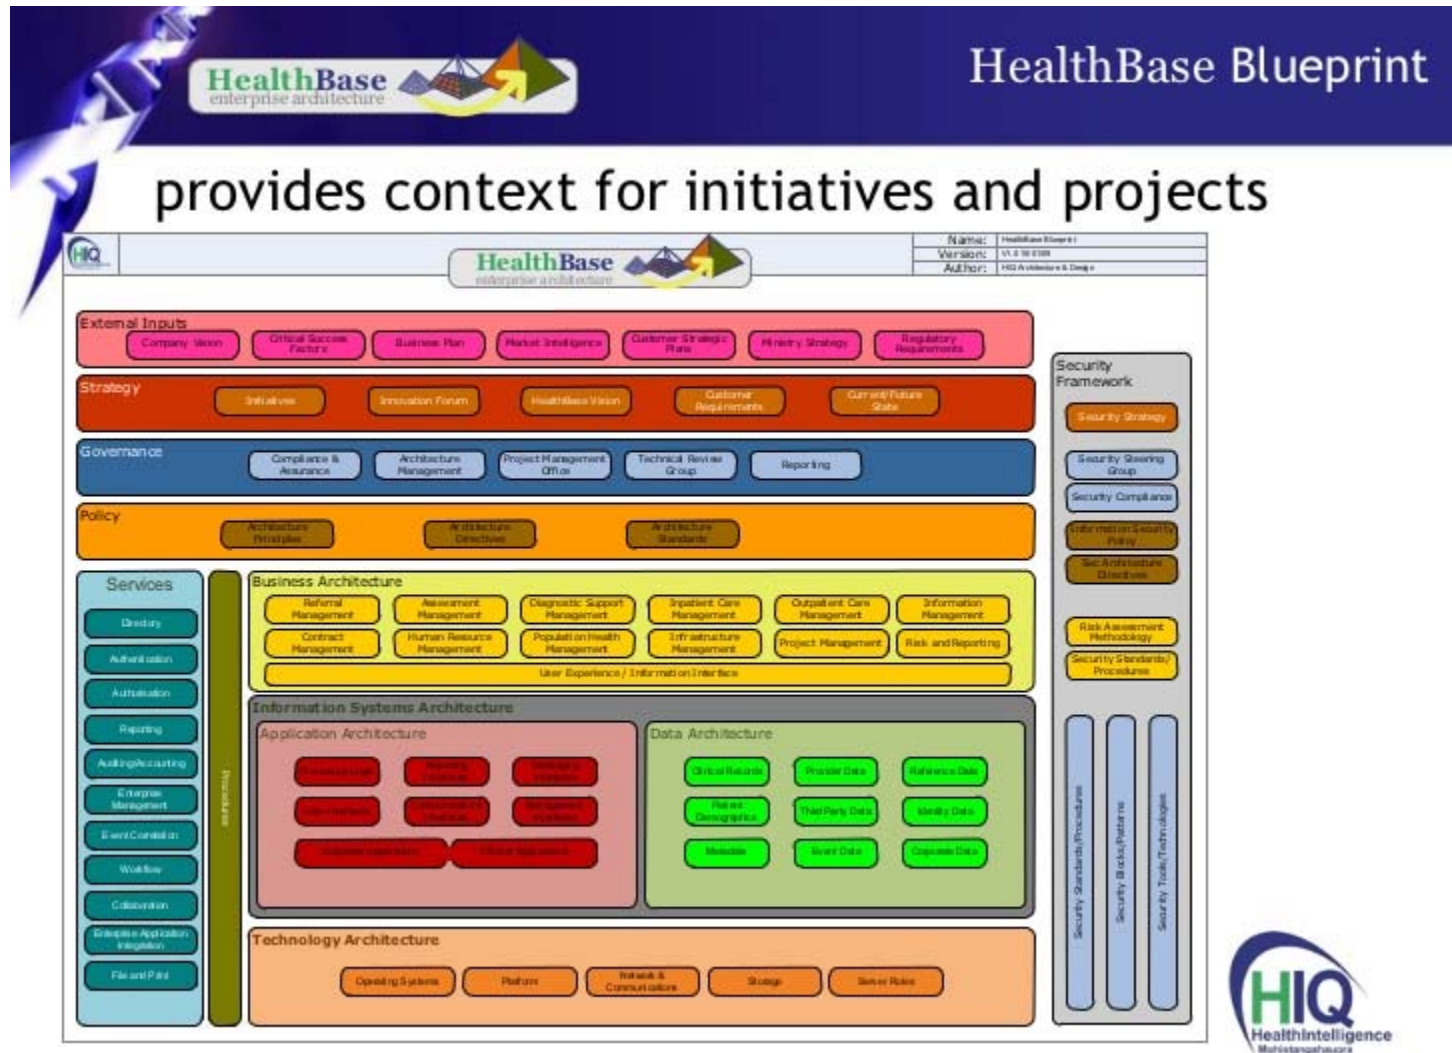

**No universal system or single provider. HISO10049.1**

# Life is like a toolbox.....

**Technology provides the toolbox, which tools you use is defined by the use case.**

# Align to the EA

Right behind better healthcare

# Agile and Extensible

**New technologies are highly agile, the real work is in the process setup.**

# Questions?
